Cookie policy

Purpose, scope, and users

Purpose: To inform visitors about the cookies we use and how they can choose whether or not to allow them.

Scope: This policy applies to all websites and online services operated by Just Software ApS, including our product portals.

Users: Anyone visiting our websites or using our product portals.

What is a cookie?

A cookie is a small data file stored on your computer, tablet or smartphone. A cookie is not a program and cannot contain malware or viruses.

How we use cookies

We use a small number of cookies. Strictly necessary cookies are set automatically because the website cannot work without them. All other cookies are set only if you accept them in our cookie banner. Our product portals use only strictly necessary cookies, for example to keep you signed in.

We use the following cookie categories, with the same names as in our cookie banner:

- **Strictly necessary.** Required for the website to work, for example to remember your cookie choices. These cannot be switched off.
- **Performance.** Help us understand how visitors use the website, so we can improve it. We use Google Analytics 4 for this.
- **Targeting.** Remember which campaign or ad brought you to our website, so we can measure our marketing. They are not used to track you on other websites.

Cookies we use

Cookie	Category	Provider	Purpose	Lifetime
CookieScriptConsent	Strictly necessary	CookieScript (first party)	Remembers your cookie consent choices	About 1 month
_ga	Performance	Google Analytics 4 (first party)	Distinguishes unique visitors with a randomly generated identifier	13 months
_ga_JV20MK4KVJ	Performance	Google Analytics 4 (first party)	Keeps the analytics session state	13 months
js_attribution	Targeting	Just Software (first party)	Stores the campaign source (ad click identifier and UTM parameters) of your visit	90 days

A current list of every cookie on our website, with its provider, purpose and lifetime, is available in our cookie report (https://cookie-script.com/cookie-report?identifier=053471c6d40f9f3d8536e75cebf7b33b). It is scanned regularly and reflects the cookies actually in use.

How long are cookies stored?

Each cookie has its own lifetime, shown in the table above and in the cookie report. A cookie is deleted automatically when it expires.

Changing or withdrawing your consent

You can change or withdraw your consent at any time through the cookie settings on our website. Withdrawing consent stops new cookies in that category from being set. To remove cookies already stored, delete them in your browser.

How to block or delete cookies

You can block or delete cookies in your browser settings, usually under Privacy or Security. The location of these settings depends on the browser and device you use. If you use more than one browser, you must do this in each of them. If you block strictly necessary cookies, parts of the website may not work.

You can also opt out of Google Analytics on all websites with Google's opt-out browser add-on (https://tools.google.com/dlpage/gaoptout).

Questions

If you have questions about our use of cookies, contact security@just-software.com. Our privacy policy (https://just-software.com/trust/privacy-policy) describes how we process personal data more generally.
